

Southall

School

If

you

have been

sent

home

.You are reading this story because

you

are a

pupil

at

Southall

School

and

you

have been

asked

to go

home

and

stay

inside.

At the moment the world is in the middle

of a pandemic . A pandemic is when

lots of people get ill with the same

virus in a large area .

**123**

The number of people catching Covid 19 is

increasing again. This is happening in

lots of different countries.

The Government wanted all pupils to come back

to school and to continue learning. The government

made it safe by making new rules.

The government are trying to stop the virus

spreading in the United Kingdom. They are using

a system called Track and Trace to stop the

virus spreading .

Track

and

Trace

is

when

someone

has

a

positive

Covid19

test

,

that

means

they

have

Covid 19

,

all

the

people

who

had

contact

with

the

person

are

asked

to

stay at

home

for

two weeks.

They

are

asked

to

stay at

home

from

when

they

last

had

contact

with

the

person

with

a

positive

test.

When

you

are

asked

to

stay at

home

2

for

two weeks

it

does not

mean

you

have

Covid 19

. It

does not

mean

that

you

will

get

Covid 19.

It is to

keep

everyone

safe

as

you

may

get

Covid 19.

The people who you live with

do not need to stay at home unless

they start to show symptoms.

The symptoms are loss of taste or

smell, a new persistent cough or a

**38**

temperature of 38 degrees or more.

You

may

feel scared

that

you

have been

asked

to stay at

home

2

for two weeks

+

and that's

ok.

You

may

feel

happy

you

have been

asked to

stay at

home

+

and

that

is

ok

too.

It is

ok

to

tell

the

people

who

you

live

with

how

you

feel

+

and

they

can

help

you

I

will

stay

inside

my

house

2

for two weeks,

I

will not

go

outside

to

shops

or

visit friends

.

I

will

keep

everyone

safe.
