

I

need

to

have

a Covid19

test

At the moment the world is in

the middle of a pandemic . A

pandemic is when lots of people

get ill with the same

virus in a large area.

The Government want all pupils to

come back to school again and to

continue learning. The government made

it safe by making new rules

16+

and by giving lots of people over 16

vaccines.

A vaccine is an injection people

have

that

can

stop

them

from getting a Covid19 virus. If

**16**

you

are

under

16

you

cannot have the vaccine .

The government have said

that to keep everyone safe

in school we must test

2x

everyone for Covid19 twice a

week.

Everyone

who

goes to

Southall

will

be tested

2x

twice a

week

at

home.

we

are not

testing

in school.

It is important that people are

testing for Covid 19, sometimes

you can have Covid19 and not

know that you have it.

Some

people

may

have

Covid19

and

they

are not

ill,

but

they

can

give

the

virus

to

someone

who

will

get

very

ill

or

die

.

If you

get

tested

at

home

we

can

help

to

stop

the spread

of the

virus

.

We

can

help

save

lives.

I

will

have

my

test

2x

twice a

week

at

home.
